

Podcast.ucsd.edu

Dear Professor _____

Please consider Podcasting your course. It is a new service that records your lectures automatically so that students can listen to it whenever they want - at home, in the car, even while jogging!

Now, you may be concerned that I won't show up to class anymore, but I promise to attend class everyday! Listening to your lectures will help me study for class and greatly improve my understanding of the material.

Best of all, it requires minimal effort from you. All you need to do is show up and put on a wireless mic.

Thank you for your time and consideration,
